

Hey,

I'm Isuru Marasinghe

Performance marketer & creative strategist.

Paid media across Meta, Google, TikTok, LinkedIn and programmatic,
with the creative direction, measurement and lifecycle work that
turns a click into revenue.

MBA (UK), ACIM (UK), PgDip.M (UK), AMSLIM (SL), CLSSWB, BM
(Hons) in Marketing - First Class (HCBT - SL)

linkedin.com/in/isuru-marasinghe · isurupm1997@gmail.com · +971 52 912 7002

A full-stack approach to performance

Over the years I've worked with brands across **e-commerce, real estate, higher education, SaaS and service businesses**, from single-founder stores to full media productions for Fortune 500 clients, and managed **over USD 1M in ad spend** across Meta, TikTok, Google and programmatic.

I scale brands through a full-stack performance approach. I don't just manage ad spend; I engineer the entire conversion journey, from the creative that earns attention to the CRM stage where a lead becomes revenue.

| Media buying is a commodity. Creative is the variable of success.

So I use data to inform creative strategy, and creative to drive down acquisition costs. Deep technical control of Meta, TikTok and Google Ads, combined with hands-on creative direction, is what turns attention into measurable revenue.

Four disciplines, one funnel

Creative, media, measurement and retention run as one system, because a cheap click is worthless if the page, the follow-up or the tracking lets it go.

Creative Direction & Strategy

A

Ideas and hooks built on audience pain points and psychological triggers, tested with the same rigour as media.

- **Creative strategy.** Angles, hooks and messaging frameworks derived from audience research.
- **Direct-response design.** UGC video scripts, static ad frameworks and motion graphics that convert.
- **Modular testing.** Hooks, bodies and CTAs tested separately to find winners scientifically.
- **Content briefing.** Creators and designers directed to produce social-first assets.

Paid Media Management

B

Full-funnel buying across the platforms where intent and attention actually live.

- **Meta & TikTok.** Scaling structures with CBO and ABO, Advantage+ and broad targeting.
- **Google Search & Performance Max.** Complex keyword architectures for high-intent demand.
- **LinkedIn ABM.** Account-based targeting for B2B lead generation.
- **Programmatic.** Eskimi DSP and Oracle BlueKai beyond the walled gardens.
- **Retargeting.** Multi-touchpoint sequences that reduce funnel drop-off.

Data, Analytics & Tracking

C

Measurement that survives privacy changes and tells the truth about top-of-funnel spend.

- **Measurement protocols.** Full setup of GA4, Google Tag Manager and the Meta Conversions API.
- **Attribution modelling.** Beyond last click, to understand the real impact of awareness spend.
- **Reporting.** Dashboards that tie spend to leads, revenue and pipeline stage.

Lifecycle & Retention

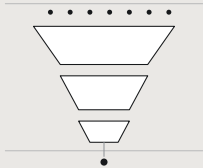

D

The revenue that happens after the click: email, flows and a CRM that closes the loop.

- **Email & flows.** Klaviyo campaigns and automated flows for Shopify stores.
- **CRM pipeline.** Lead status, qualification and follow-up feeding back into targeting.
- **Conversion rate.** Landing page and offer iteration driven by funnel data.

Selected results, straight from the accounts

Five cases follow, each with the platform report it came from.
Headline figures in USD; AED converted at the pegged 3.6725.

What clients say

“

Isuru has a rare combination of strategic acumen and hands-on execution skills, which makes him a true asset to any organisation.

Andry Steliou

Co-founder, Diploma Credits

“

He treats a campaign as a whole funnel, not a media plan. Our student recruitment became predictable, measurable and far cheaper per application.

Dr. Priyanka Darshana

Managing Director, ESM Global

“

Sharp on strategy and hands-on in the accounts. Isuru set up our tracking properly first, then scaled the campaigns on real data rather than assumptions.

Hrach Kalsahakian

Founder, Consider Consultancy

“

Isuru brought creative direction and performance discipline to our intake campaigns. Every asset had a purpose, and every dollar spent had a report behind it.

Asanka Wijeratne

Head of Business, Kingsford College of Business & Technology

“

Our projects photograph beautifully, but Isuru turned that into enquiries: high-intent leads, well-briefed creative and clear weekly numbers.

Farzad Sarikhani

Founder, Nextpoint Decoration Design & Fitout

“

A rare mix of brand sense and performance rigour. Isuru's creative testing found the hooks that worked and doubled down on them fast.
